

# Milo's Birthday Surprise

This gorgeous picture book is a wonderful introduction to the alphabet.

You'll notice two things about this book:

1. It's not displayed in alphabetical order - it's actually displayed in the order that most schools use when they teach single sounds
2. The font used is called "Sasoon", chosen for its ease of writing.

It's also a long book to read in one go!

So, we suggest you always start with the first page and finish with the last page. Then, get some sticky notes to tab the pages that have letters that are in your child's name and read those pages each time too. Add in other letters as you go.
